

Complete managed services. Superior streaming media. Dynamic digital signage.

A true partnership. That's Spinitar.

managed services

With more and more of today's businesses embracing technology to effectively reach niche audiences and compete in the global marketplace, the need for a managed services program is critical. That's where Spinitar comes in. Whether it's taking care of the day-to-day operations of your videoconferencing system, supporting your entire audiovisual system or helping to integrate your AV and IT systems, Spinitar's team of industry-certified professionals have helped many Fortune 500 clients integrate custom technology solutions that facilitate better business results.

We can work with your in-house technical personnel to help implement a complete range of service options. Spinitar is here for you, every step of the way.

Services

streaming media

When it comes time to broadcast a shareholder meeting across the enterprise, conduct a training seminar for remote employees or create an interactive learning environment in the classroom, Spinitar's streaming media presentations are the answer. With streaming media capabilities, the ability to create and present sales meetings, executive briefings and policy announcements over the Internet has never been easier - and Spinitar can show you how to customize each presentation specifically for your business needs.

We can even show you how to create customized templates that meshes with your company's branding and messaging. At Spinitar, streaming media is a reality.

Streaming

digital signage

Looking to deliver high-impact, dynamic messages and content to your customers at specific locations and times? Digital signage solutions can be displayed virtually anywhere, from interactive kiosks to retail television to point-of-sale advertising. Spinitar offers custom, cost-effective digital signage solutions to deliver your message creatively and effectively, whether it's for banking or financial institutions, airport or transportation terminals, or retail and point-of-sale environments.

We're experts in configuring, managing and supporting digital signage software, hardware and networks - enabling you to focus on your business without the need to spend precious time on monitoring equipment.

Signage

Your partnership. Your choice.

Custom audiovisual communications technologies...designed just for you.

Founded in 1986, Spinitar is a leading systems integration company dedicated to providing its clients with custom audiovisual and communications technologies, solutions and services. Through each of its four key business divisions - Visual Products, Presentation Products, Audiovisual Systems Integration and Support Services - Spinitar designs, recommends and implements specialized audiovisual technology solutions across a wide array of market segments, including government, business, and education. Our solutions can be found in many specific applications, including classrooms, meeting rooms, digital signage and more.

Our team of certified professionals specializes in the latest industry products, solutions and resources to meet your custom audiovisual communications technology solution needs.

Call us to find out how you can build better business results for your organization.
