SPINITAR is pleased to be a General Services Administration (GSA) contract holder. Spinitar's contract number is GS: GS-03F001P, Contract period is 10/14/03 to 10/15/08.

Spinitar has a dedicated Government Services Division which is committed to improving productivity and readiness of federal and state agencies using our expertise and knowledge in integrating audio video (AV) and video conferencing (VC) systems.

CREATING SOLUTIONS

Since 1986 Spinitar has worked with Government agencies to:

- Increase reliability of communications between individuals and groups
- Integrate technological solutions that facilitate information transfer and processing
- Deliver powerful solutions to any Army, Navy, Air Force, Marine, Coast Guard and Civilian Agencies

SPINITAR's DEDICATION TO GOVERNMENT BUSINESS

Spinitar's approach to government is based on our key relationships with our customer and manufacturer partners. We pride ourselves on ensuring our solution is based on the latest technologies, quality service, best in class installation and the ease of GSA pricing.

Our solutions consist of:

- Sales consultation with manufacturers and clients
- Design and engineering services
- Quality installation and testing
- Technical and maintenance service support
- Product leasing and rentals

SPINITAR's PROMISE

Spinitar's dedicated federal and state sales and support teams will work to ensure you have an integrated solution that exceeds your agencies needs.

Spinitar has worked within and built numerous Audio/Visual solutions in highly classified Government environments. Spinitar has the capability of obtaining and working within the necessary security clearances. We have extensive experience within all areas of integration, from design build, request for quotation, to single impact card type sales and integrations.

SUPPORT SERVICES

Spinitar's after sale service and support is critical to all our clients continued efficiencies. Our responsiveness and technical capabilities ensures our clients operations can continue through any support requirements. We specialize in Large/Screen Projection (front, rear, video cubes, etc), Computer Interfacing, Environmental Control Systems, System Engineering and Design, Installation and most importantly, "The After-Sale Support."

Spinitar Personnel are all factory trained and highly certified by the Audio Video Manufacturers. We undergo regular training and certification sessions with Manufacturers such as AMX, Barco, Crestron, Christie Digital, Mitsubishi, Infocus, Proxima, Plus, Sharp, Varitronics, Extron, Polycom, Tandberg, Gentner, Clear One and a host of others.

They provide our personnel with the level of training required to extend the highest quality of support available. We are the Warranty arms, the After-Sale Support, for these manufacturers! We begin by providing Telephone Support, with services up to, and including complete On-Site Support.

The Spinitar "After-Sale Warranty/System Support Policy"

is designed to provide our Customer's with peace of mind. Upon completion of the sale and/or system installation, we are able to provide several system support options designed with you, the Customer in mind!

Spinitar understands the importance of Proper Maintenance and feels it essential to maintaining optimum System Performance. The Equipment Longevity and Customer Satisfaction are a direct result of this program.

Spinitar would be pleased to meet or discuss any solutions you may require. Please contact our Government team at the following locations:
